Model No	Item no.	Description text				✓
----------	----------	------------------	--	--	--	---

SE	106090	Smart Free 16" Handbike By Wire Compact handbike with CIXI PERS drive system, 16" gear hub motor 250W (peak 800W), 12G spokes in a wide rim, Schwalbe Pickup 2.15 x 16", 16" GX fender with bracket, foldable and tilttable crank unit, wheelbase adjustable from 82 to 96, head tube can be extended by approx. 20 cm, short side arms (top tube and seat tube), 48V 700Wh battery, display with 5 power and 5 cadence levels, Phylion charger, hydraulic 4-piston brake, Bowden cable for parking or secondary brake on the frame, electric regen back pedal brake, Stricker bullhorn cranks with ISIS thread, kickstand with clamping tube and long joint, 23 kg transport weight, "Lumo" light with reflector, max. speed 25 km/h. Technical max. speed 35 km/h—any faster could cause personal injury, range approximately 40 km-60 km				☐
--------------------	--------	---	--	--	--	--------------------------

Axle distance 82-96 cm adjustable

PERS = Pedal Energy Recovery System, max. speed 25 km/h. Overspeed regeneration begins at 27 km/h. Technical max. speed 35 km/h—any higher speed may damage the PERS, even when it is turned off.

Tetra equipment (as of October 2026): This is not yet available. A release date cannot be provided at this time.
 The electric back-pedal brake that is already available serves only as a convenience brake. To ride the handbike, you must have sufficient hand function to operate the Magura brake lever!
